

ECDL Malta

Mapping of the ECDL Certifications with the Malta Qualifications Framework

2nd August 2010

ECDL Malta would like to announce an important recent development regarding European Computer Driving Licence (ECDL) certifications.

ECDL Malta and the Malta Qualifications Council have agreed that the following two certifications are classified under the eight-level system as detailed in Legal Notice 347/2005 and the level descriptors of the European Qualifications Framework for Lifelong Learning (EQF) and the Malta Qualifications Framework (MQF).

The Certificate awarded on successful completion of the seven ECDL Core Modules offered by ECDL Malta and awarded by the ECDL Foundation is referenced to Level Three of the Malta Qualifications Framework (MQF) and the European Qualifications Framework (EQF) for Lifelong Learning.

The Expert Certificate awarded on successful completion of the four Advanced ECDL Modules offered by ECDL Malta and awarded by the ECDL Foundation is referenced to Level Four of the Malta Qualifications Framework (MQF) and the European Qualifications Framework (EQF) for Lifelong Learning.

For both certificates the MQF determines the exit points of qualifications while the entry requirements to programmes of study remain at the discretion of education and training providers.

ECDL Malta is responsible for operating ECDL certification programmes on behalf of the ECDL Foundation which is the certifying authority of the world's leading end-user computer skills certification programme.

For more information about the ECDL programmes view our website www.ecdl.com.mt .

ECDL Malta may be contacted via e-mail on info@ecdl.com.mt or phone number 21667706.
