

## **ECDL Foundation Courseware**

*B'Kara, 8th January 2018*

In recent months, the ECDL Foundation started developing courseware for all ECDL modules. ECDL Malta through the network of accredited Test Centres shall be providing this courseware to all candidates registered on the ECDL Certification programme.

Candidates purchasing certification test/s (Base, Intermediate or Advanced) from a Test Centre will be provided with courseware and quick reference guide/s for the relevant module test/s purchased. There shall be no charge for this courseware and quick reference guide/s. An appropriate fee may however be charged by the Test Centre to recover the costs associated with the provision of printed or electronic versions of the courseware and quick reference guides.

The provision of ECDL Foundation courseware will assist Test Centres to enhance the quality of ECDL training. Additionally, all candidates will now benefit from quality training material that complements the training received from Test Centres.

More information about training and courseware is available at:
